

## **PREFACE**

By giving thanks to the presence of Allah SWT and only because of His mercy and grace, the Proceedings of the International Conference on Education Technology and Social Science (ICoETS) 2022 have been successfully completed. The Proceeding of this international conference is a collection of research papers by academics and researchers who were previously presented at the ICoETS Conference 2022 which was held Online and Offline on 25 – 26 October 2022, where the Research and Community Service Jabal Ghafur University is trusted as host. The theme of the International Conference 2022 is "Social Science Development and Educational innovation based on technology"

In accordance with the topic raised in this conference, the publication of this proceeding is intended to disseminate the results of research and studies in the fields of education, socio-economics, information technology, health, and agriculture. Apart from being a source of new information, the information presented in this proceeding is also expected to be a medium of communication and collaboration for academics and researchers across scientific fields in Indonesia who will support the strengthening of the role and function of higher education in accelerating innovation and technology for the realization of scientific development and utilization for society. based on resources and technology.

On this occasion, the editorial team would like to express their deepest gratitude to academics and researchers for the work and contributions of ideas presented in the form of scientific papers and presentations. It is our hope that this proceeding can add to the repertoire of science and technology development in Indonesia, especially in the framework of strengthening the role of higher education to support the development of the nation's resources.

Sigli, 31 December 2022
